

BULK-FLO™ RUGGED & VERSATILE

TRAMCO 

**THE HIGHEST
PERFORMANCE
AT THE BEST VALUE!**

Designed & Engineered for Versatility.

BULK-1

FLO TMM

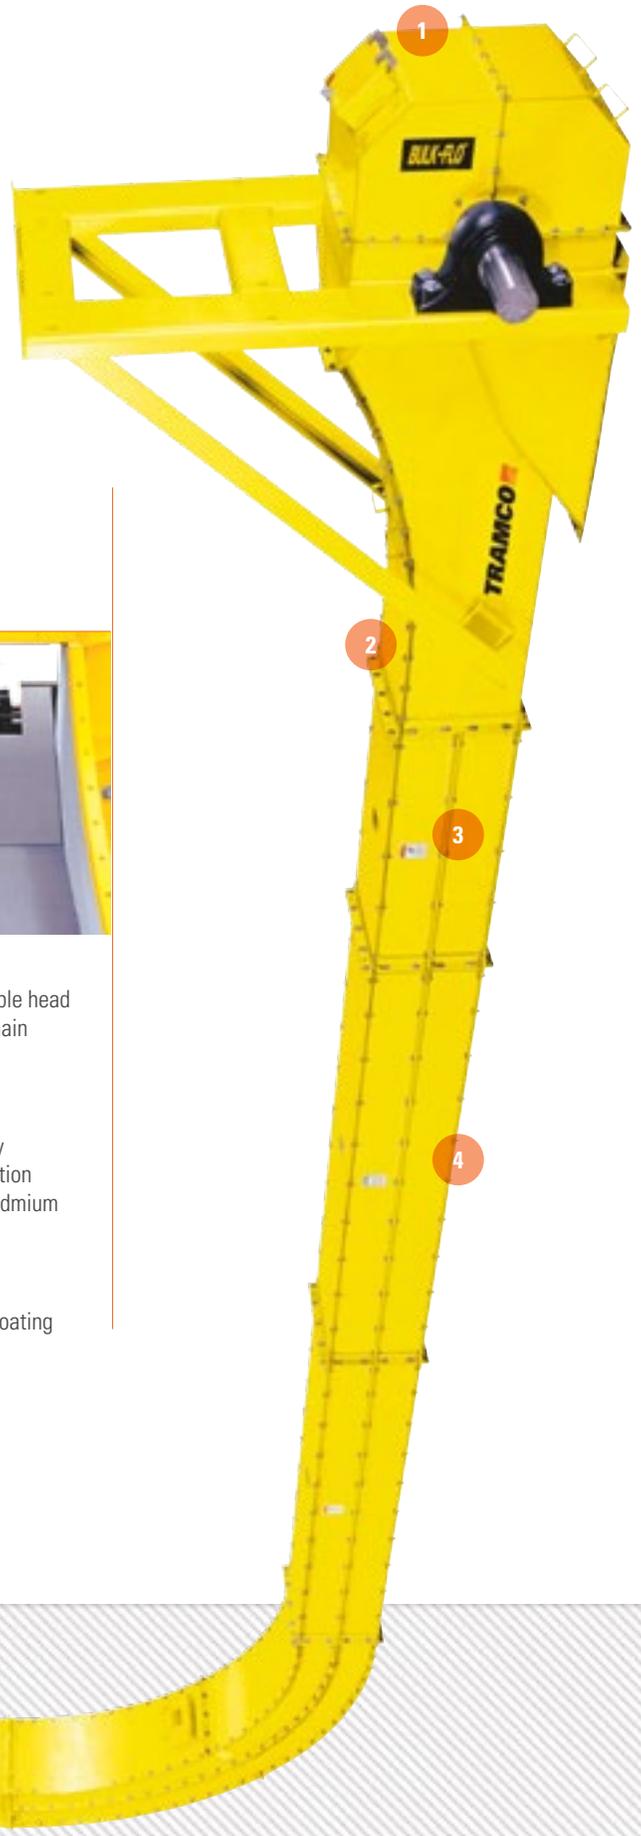

DEPENDABLE PERFORMER FOR THE MOST SEVERE APPLICATIONS

The TRAMCO Bulk-Flo™ heavy-duty chain conveyor is built to work in processing applications handling materials such as; wet and sticky, varying sizes and densities and abrasive or corrosive materials.

The unsurpassed quality and rugged construction of the Bulk-Flo conveyor series assures years of dependable service even under the most severe conditions.

Each system is individually designed for your specific application from standard components that are robot welded in jig fixtures to provide interchangeability and smooth operation. All head and tail sections are maintenance friendly and wear parts are easily replaced.

Standard Head with Cover

Heavy-duty long life pillow block roller bearings

Standard packing gland shaft seal

1 Standard Head without Cover

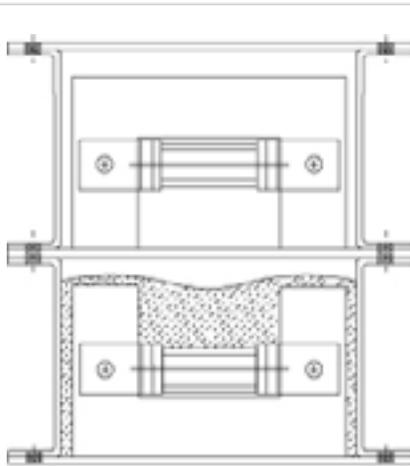

Double-life walking tooth split sprocket

2 Easily replaceable head carryback (or chain stripper)

3 Standard totally bolted construction with grade 5 cadmium plated bolts

4 3 Mil Powder Coating

Totally bolted Trough Cross-Section

*NOTE

Covers have been removed for illustrative purposes only. Do not operate conveyor unless all covers, guards, etc. are in place.

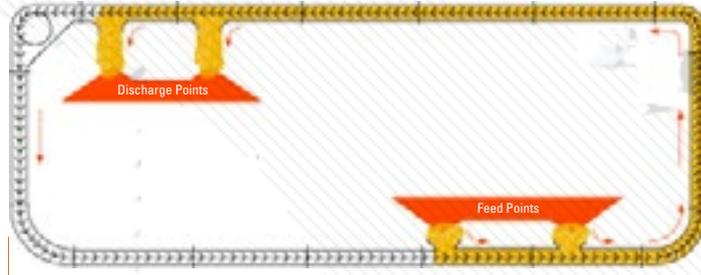

5
Standard packing gland
shaft seal

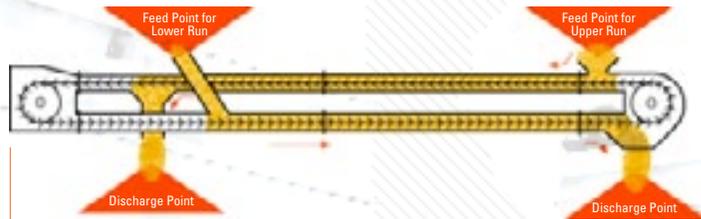

6
Standard Tail
Heavy-duty frame with
Rex "ZT" center pull
take-up bearings

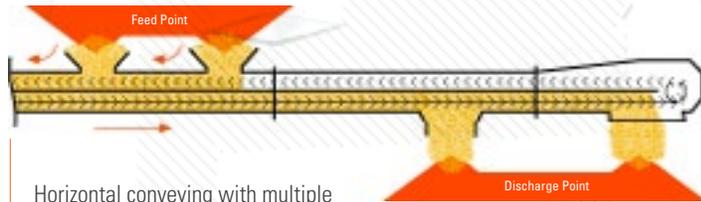

TYPICAL ARRANGEMENTS OF BULK-FLO™ CONVEYORS FOR VARIOUS APPLICATIONS.

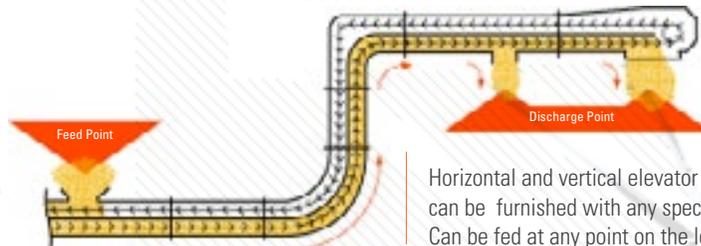

Vertical closed-circuit conveyor elevator can handle material in any of its four runs, feeding at any point on its lower run and discharging at any point on its upper run.

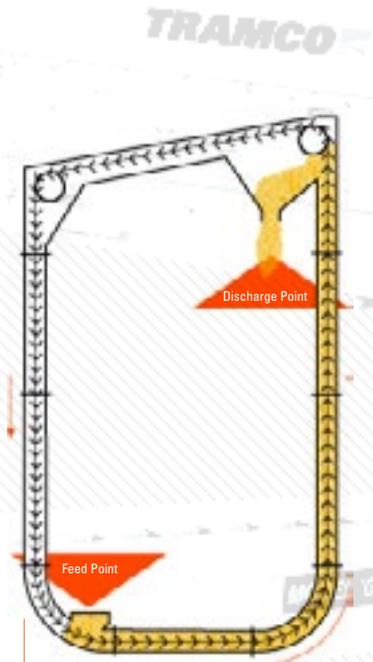

Horizontal conveyor which carries material in both upper and lower runs, will convey full length in both directions.

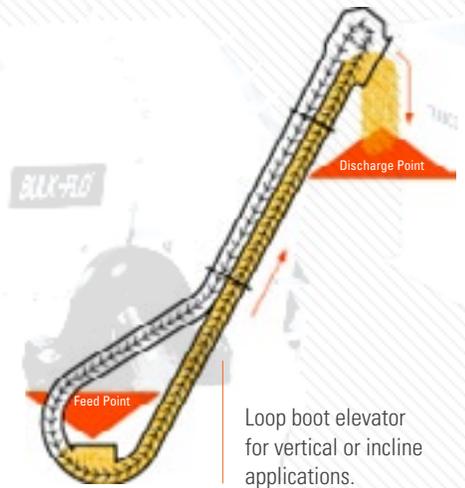

Horizontal conveying with multiple self-feeding inlets and multiple outlets.

Horizontal and vertical elevator in one unit. Bend corners can be furnished with any special degree of curve. Can be fed at any point on the lower horizontal run.

Vertical closed-circuit elevator where material may need to be recirculated. Has low feed entry point, thus eliminating boot pit.

Loop boot elevator for vertical or incline applications.

TRAMCO... THE WORLD'S MOST COMPLETE LINE OF CHAIN & ENCLOSED BELT CONVEYORS.

TRAMCO conveyors and elevators, "The Quiet Ones" have become the standard of the industry. They are designed, engineered and built for hard work and long life. All models feature non-metallic flights for lower noise levels, minimal maintenance and downtime.

1

TRAMCO BUCKET ELEVATOR

The Work Horse

Centrifugal Discharge design used for the bulk handling of free-flowing fine and loose materials with small to medium size lumps. Built-to-last for the toughest requirements.

2

TRAMCO JETBELT™

Air Supported Belt Conveyor

An efficient system requiring less horsepower than other systems. Used for dry bulk handling requirements in a variety of products.

3

TRAMROLL™

Enclosed belt conveyor with innovative features such as; self-reloading and self-cleaning tail section and multiple inlets. The heaviest duty design in the industry.

4

TRAMCO MODEL RB

Designed for self-cleaning and quiet operation with a u-shaped trough for handling soft stock or materials that are easily crumbled or broken.

6

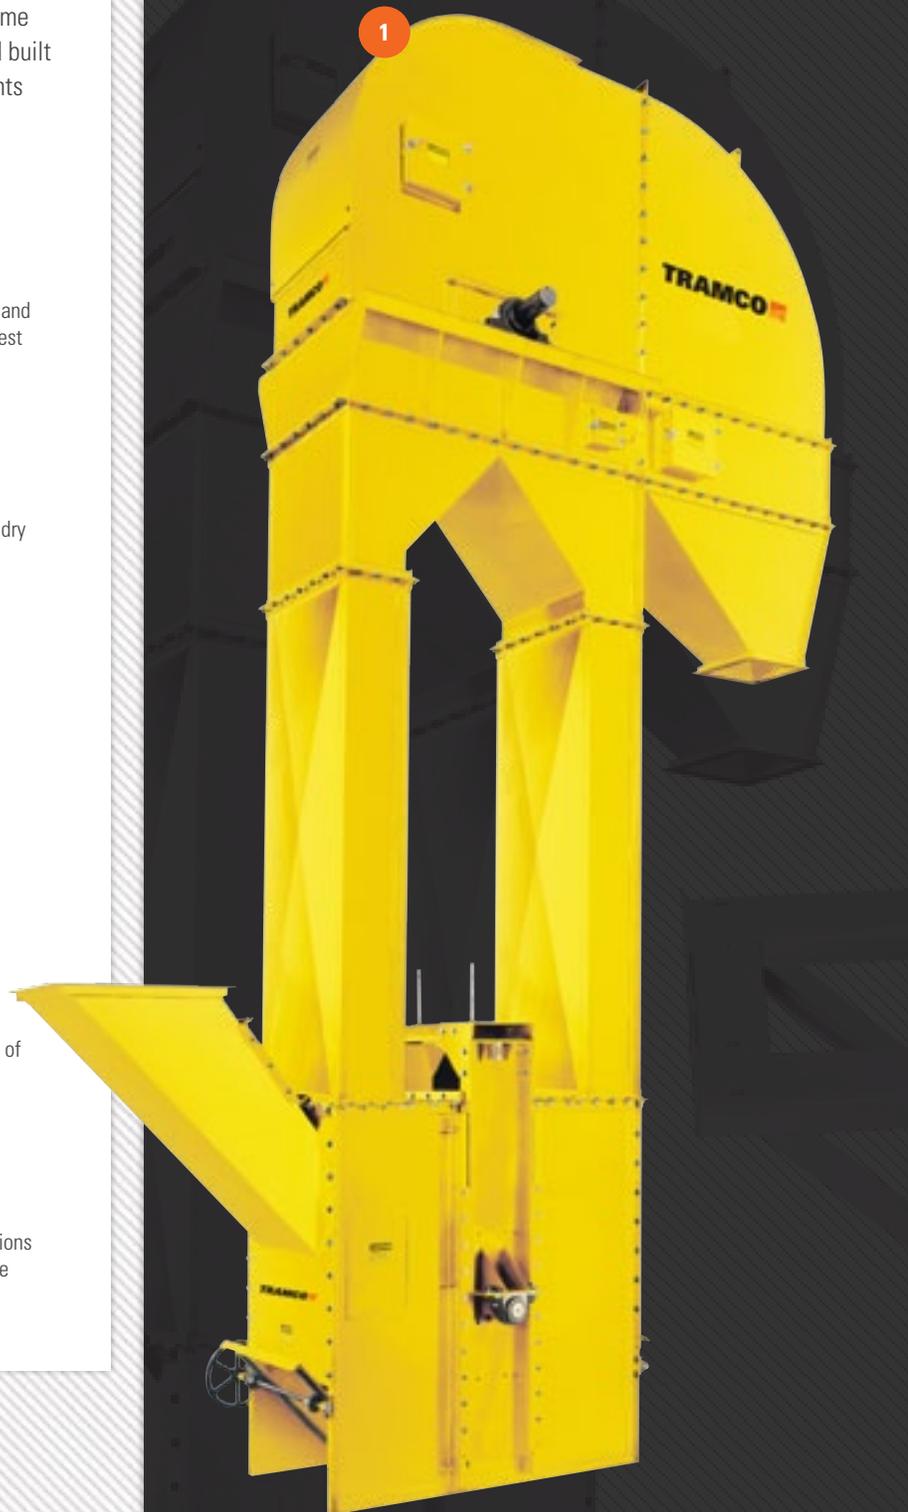

TRAMCO MODEL G

Built standard with 10-gauge construction to accommodate large capacities of free-flowing materials. Provides years of trouble-free service under extreme applications.

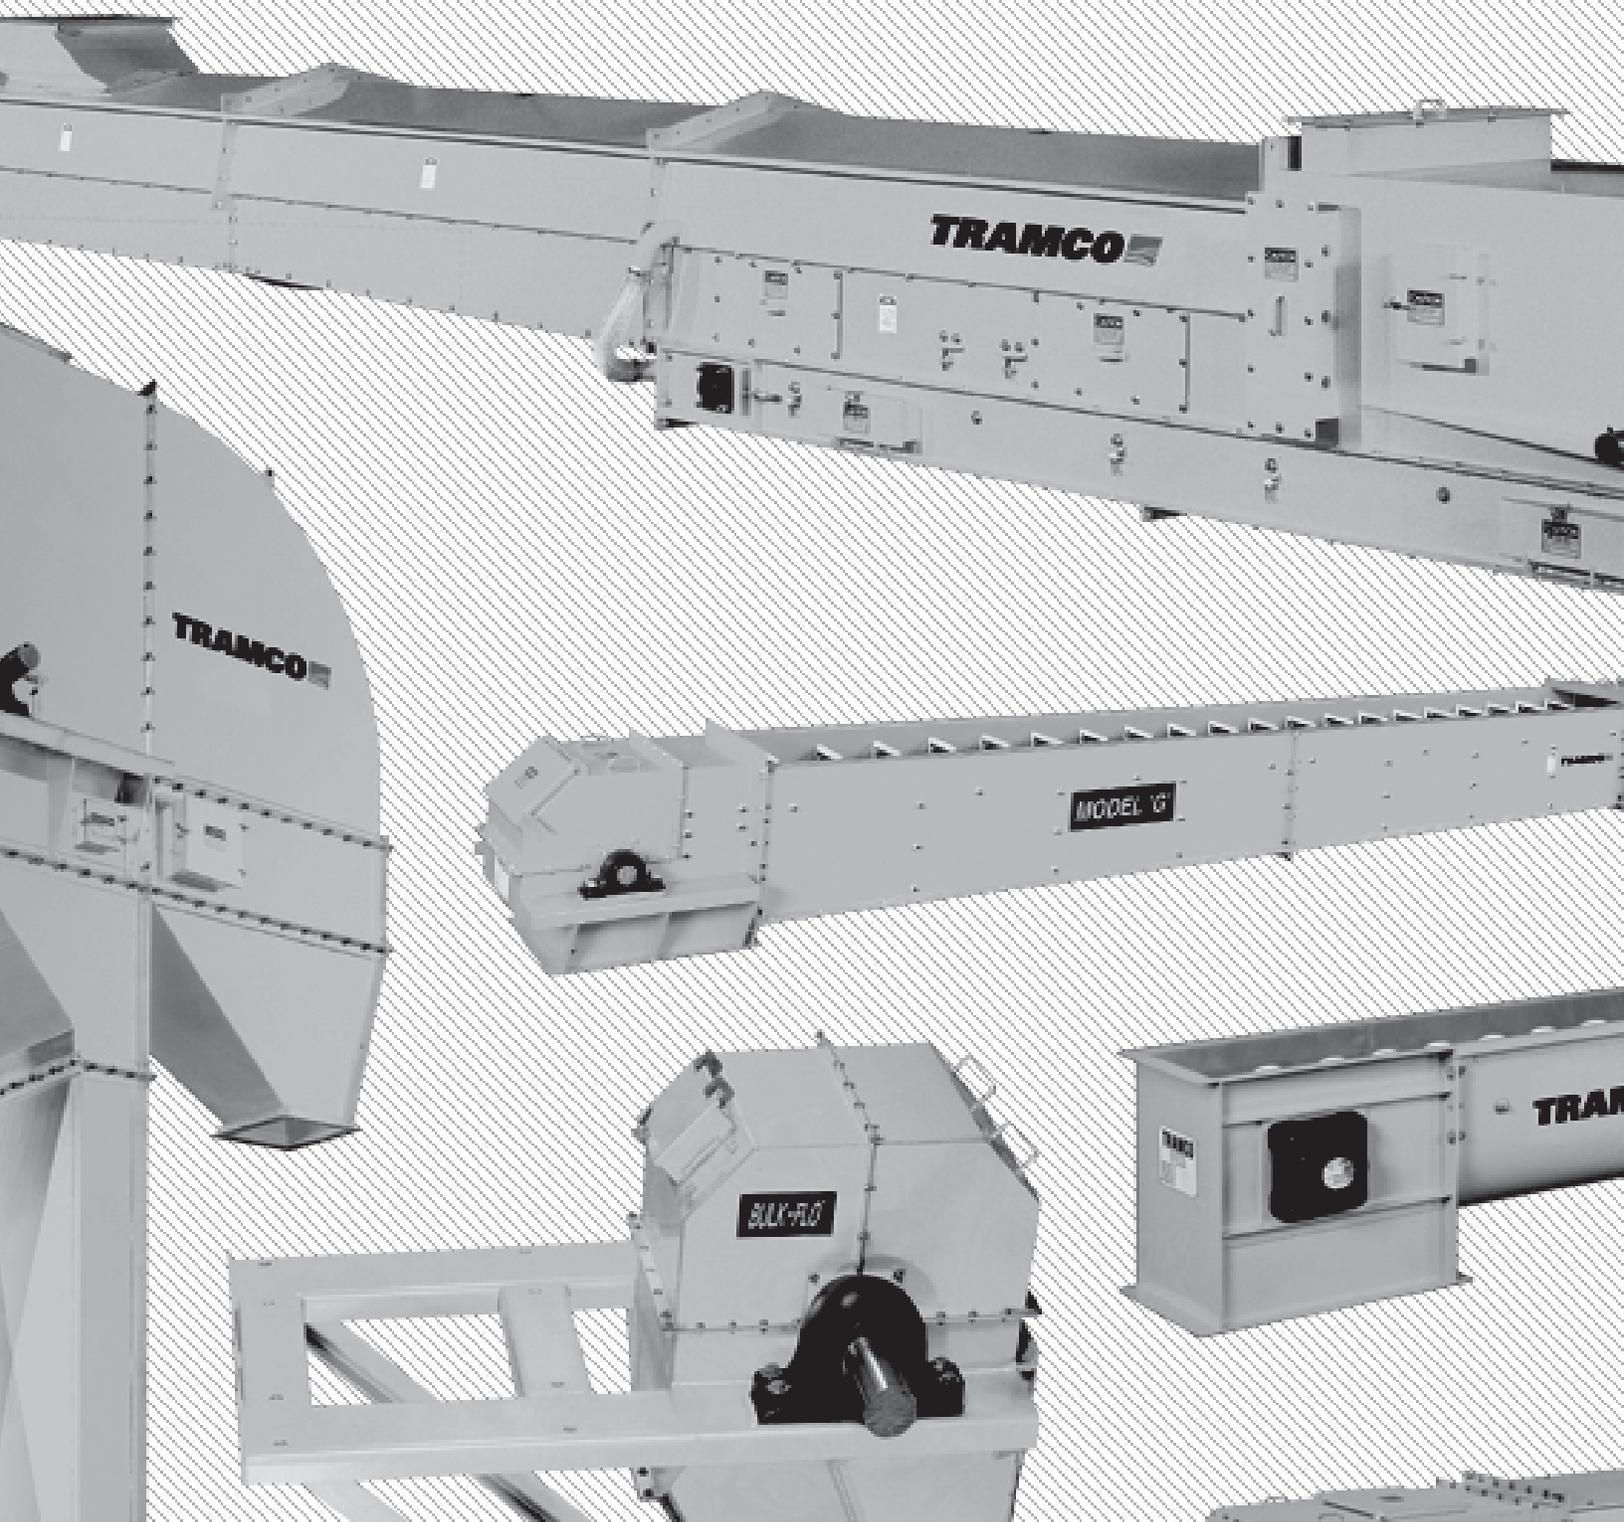

7

TRAMCO BULK-FLO™

The heavy-duty chain conveyor designed specifically for processing applications such as; wet and sticky, varying sizes and densities and abrasive or corrosive materials.

A unique combination of design, engineering, proper component selection, manufacturing and service after the sale makes TRAMCO Conveyors the first choice for consulting and supply in bulk material handling situations. TRAMCO delivers product for various industries such as chemical, coal, food and grain, mining, plastic, pulp, rubber and paper, or solid waste and recycling. Buying TRAMCO ensures expertise, knowledge, manufacturing know-how and the comfort that comes with every TRAMCO conveyor.
